

December 30, 2025

**Assessment Rate Notification
for Fiscal Year Ending June 30, 2026 (FY26)**

The Rhode Island Executive Office of Health and Human Services (EOHHS) has established the **Rhode Island Primary Care Assessment Account (RI PCA)** in accordance with [Section 42-7.4-3 of the Rhode Island General Laws](#).

The annual funding requirement for RI PCA is \$30 million. For FY26 (July 1, 2025 through June 30, 2026), the program will collect a total of **\$15 million**, reflecting the program's **January 1, 2026 implementation** and collection in two quarterly installments of **\$7.5 million each**.

The FY26 assessment rate of **\$4.15** will be used to determine amounts due on the following dates (for their corresponding measuring months):

Due Date	Measuring Months
January 30, 2026	October – December 2025
April 30, 2026	January – March 2026

No new reporting is required. RI PCA will use the same covered lives data you already submit for the [Rhode Island Vaccine Assessment Program \(RIVAP\)](#) to calculate a uniform, statewide assessment rate. For more information, please visit www.rivaccine.org. Provided these reports are filed correctly and on time, no additional reporting is necessary for payers to remain compliant with RI PCA regulations.

We are thankful to the payer community for their consistent and timely reports. We extend our sincere gratitude to the Executive Office of Health and Human Services (EOHHS) for their outstanding guidance and diligent efforts during the assessment process. We invite you to visit www.ri-pca.org to learn more about the program.
